CAIRIBU COMMUNITY NEWS

Collaborating for the Advancement of Interdisciplinary Research in Benign Urology Internal interactions newsletter. My purpose in creating this monthly newsletter is to enhance communications between NIDDK-funded investigators from U54s, P20s, and K12s working in the area of benign urology, facilitate sharing of knowledge and accomplishments, and provide timely and relevant research-related news, announcements, and updates. - Kristina (Kris) Penniston, PhD

INFO NEEDED FROM YOU...

As you know, I am preparing content for an "umbrella" website that describes all of our work and incorporates various ways for building collaborations both within and outside of our community. I am continually looking at ways to promote your work to the broader urologic community. In order for me to do this, I need more details about your programs. The information I am requesting is fairly basic, so I hope it will not take much time or effort to compile. If it helps you collect this information, please COMPLETE ATTACHED FILLABLE FORM (picture below). Alternatively, feel free to send the info in some other form. Return to me at penn@urology.wisc.edu.
