Special Event for Trainees and Early Investigators

Members of the 2020 Trainee Event Planning Committee (*K12 Scholars Casey Steadman, PhD; Marvin Langston, PhD; and Scott Bauer, MD; and postdoctoral researchers Renee Vickman, PhD and Diya Binoy Joseph, PhD*) **invite trainees and early investigators to Zoom in early to the CAIRIBU meeting.** Please plan to attend this event, 9:30-12 noon EST on Thurs., Dec. 3.

CAIRIBU TRAINEES & EARLY INVESTIGATORS - register [HERE](#)

This special trainee “pre-meeting” has been designed specifically to address the unique needs of trainees and is a great opportunity to connect with other trainees in benign urologic research. This year, **Dr. Betsy Rolland** (Director of Team Science at the University of Wisconsin School of Medicine & Public Health) will deliver a presentation with expert tips for conducting collaborative, interdisciplinary research and how to write proposals that are true team science. In addition, **NIDDK Program Officers** Chris Mullins, PhD and Tamara Bavendam, MD, MS, will provide insider tips on how to land that NIDDK grant!

This pre-meeting is designed to benefit all trainees attending the CAIRIBU annual meeting and will give participants a chance to foster new relationships with other trainees, voice their greatest needs for reaching career goals, and learn about new opportunities for interdisciplinary collaborations and funding.

P20 Exploratory Centers for Interdisciplinary Research in Benign Urology

CAIRIBU welcomes 2 new centers...

- Medical College of Wisconsin (PI, Kathryn Flynn, PhD)
- University of Pennsylvania and Children's Hospital of Philadelphia (PI, Greg Tasian, MD, MSc, MSCE)

... and congratulates the renewal of another

- University of Alabama at Birmingham (PI, Dean Assimos, MD)

Read more about these centers [HERE](#)

New K12 Scholars

Duke University KURe Program

- Sonali Advani, MBBS, MPH

University of Wisconsin-Madison KURe Program

- Lauren Baker, PhD, DVM
- Matthew Grimes, MD

UCSF-Kaiser Permanente KUroEpi Program

- Eva Raphael, MD, MPH

Read more about their research [HERE](#)

UPCOMING EVENTS

NIDDK workshop series on female urethral function and failure

Seven-week virtual workshop began Sept. 30, 2020. There are 2 sessions left - **November 4 and November 18**, both from 4:00-5:30 p.m. EST. More information [here](#).
